

# PEAK PERFORMANCE CULTURE

**Culture is the line a group draws between the behaviors it embraces and the behaviors it does not tolerate—and this line always exists.**

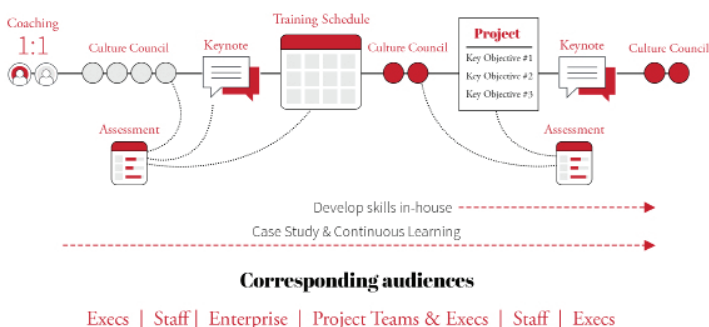

Culture also determines how and if an organization's goals are achieved. It influences whether strategies are implemented as planned, if money is spent as the budget dictates and whether or not potential threats are solved before their detrimental implications. As a result, culture is an essential lever to maximizing your organization's potential.

The Clearing empowers your organization to realize its Peak Performance Culture.

A comprehensive approach encompasses all six modules, but each segment can be completed separately and independently depending on client need or opportunity.

 <h3>COUNCIL</h3> <p><i>Ideal for executives and trusted advisors</i></p> <p>Develop a common view and intent for your culture in this fun and interactive forum. The Council establishes the foundation for Peak Performance Culture with a custom culture model.</p>	 <h3>ASSESSMENT</h3> <p><i>Ideal for teams, executives, and staff</i></p> <p>Evaluate your company's cultural values and norms against 7 Peak Performance Culture Disciplines. The Assessment uncovers the sources and effects of culture among your team to engage your employees and begin developing Peak Performance Culture.</p>	 <h3>KEYNOTE</h3> <p><i>Ideal for teams, executives, and staff</i></p> <p>Discover the effect culture has on your company's performance, and the ways that a leader can identify and shape corporate culture.
